Staff Honored for Long Service

Question: What have Eldon Fowler (Civil Engineering), Bill Lakey (Surgery) and Roy Berg (Agriculture and Forestry) in common? Among other things—growth in their respective professions, for example—each was honored last week with 57 colleagues for many years of dedicated service to this University and the people of Alberta. The function at which these people were honored took place on 28 January at the Faculty Club.

Hosted by the Board of Governors, specifically the Board's Educational Affairs Committee (BEAC), the function began at 3 p.m. with a wine and cheese reception, with presentations to members of our academic and academic staff beginning at 3:30 p.m.

President Horowitz welcomed the assembled guests and Janet Bentley, Chairman of BEAC, introduced the first group of people being honored for 25 years of service. Governors Kozar, Wachowich and Shinkaruk followed, each presenting people with 25 years' service, and making short statements about their careers. Each person received, as a token of the University's gratitude, a mounted brass plaque.

The second group of employees honored had served 30 years. These were introduced by Governors

White and Mactaggart. They received engraved pens and certificates suitable for framing.

The last group, people who have been employed here for 35 years, were presented by Chancellor Savaryn. They also received certificates and, as lasting mementos, book-ends bearing their names and the University emblem in cast bronze. Following the presentations, Dean Berg thanked the Board for arranging the awards ceremony. President Horowitz, noting that the accumulated service amounted to 1,605 years, paid tribute to the examples of excellence afforded our community.

Question: Which students might have been responsible over four decades ago for carrying off the Rutherford Library foundation stone? (It was returned under threat of expulsion by then President Newton.)

Twenty-five Years

Peter F. Adams (Civil Engineering)
Irene Barnes (Library)
Douglas D. Barry (Extension)

James A. Robertson (Soil Science)

Planning for 'Canada, the World and the Future' in High Gear

Feelers are still out but it can be reported that the Fourth Annual Conference on "Canada, the World and the Future" will be held 10 to 14 March, primarily in Bernard Snell Hall.

Chairman L.C. Green and the 12-member organizing committee have defined a number of sessions, including those on Canadian culture, free trade, Canadian multinationalism and social responsibility, the ethics of new medicine and mastering space.

Guest speakers and other details will be announced shortly.

As has been the case right along, the conference is open to University staff and students and to the general public. □

GFC Endorses Operating Budget Foundation

With another fiscal year closing in, Council found the Operating Budget Principles and Policies 1986-87 on its plate. Deans and Directors and the Vice-Presidents held planning meetings in November and December and, as President Horowitz pointed out, if there is a beginning of the 12-month cycle perhaps this (GFC meeting) is it.

The principles and policies state that if it is deemed essential to invoke a position freeze for purposes of providing flexibility in advance of a stringency tax, such freeze will be applied in so far as possible as a partial freeze, leaving unit heads the discretionary power to decide which vacancies, academic and/or non-academic, are to be exempted from controls. However, Vice-President (Administration) Allan Warrack expressed confidence that a position freeze in the next two years would be unlikely.

The motion to approve the operating budget principles and policies was carried by a wide margin.

Also gaining approval was a policy for international students prepared by the President's Advisory Committee on International Affairs. Among the stated objectives are "to strive for student representation from as many countries and cultures and in as many fields of study as possible" and to provide such services as basic information prior to departure for Canada to assist in preparation for arrival, arrangements for airport reception, assistance with immigration procedures and emergency financial assistance.

The policy also has the objective of "working towards the abolition of differential fees for international students and the removal of barriers to students and their spouses seeking temporary employment while in Canada." (A foreign student must not work in this country unless it's essential to his study, for example, a graduate assistantship.)

Students' Union President Mike Nickel said that a proposal to contribute \$12,000 to the International Student Centre was

currently before Students' Council.

The following policy concerning physical requirements for University courses will be printed in the *University Calendar*: "The University has a commitment to the education of all academically qualified students and special services are regularly provided on campus to assist disabled students.

"Nevertheless, some courses make certain unavoidable demands on students, with respect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In cases of doubt, students are advised to contact the Department concerned and the Disabled Student Services Co-ordinator, Office of the Dean of Student Services.

"Since support services cannot be guaranteed for off-campus courses, instructors may be obliged to refuse registration in such courses."

The statement was developed because various instructors were unclear as to what they could or could not do when a given course incorporated physical requirements as an essential aspect of its curriculum. The majority of enquiries related to off-campus courses.

The annual report (1984-85) of the GFC Conference Funds Committee was received. During the reporting year, the committee dealt with 24 applications for assistance and approved all but one. This, said the report submitted by Chairman J Nursall, is a decline of about 25 percent from the previous year, which, in its turn represented a 25 percent drop from 1982-83. "It would appear that the economic slump and budget uncertainties, to which the decline was attributed in the report of 1983-84, is still having its effect."

In 1984-85, the total amount of funds requested by applicants was \$103,607.75. The total allocated to applicants was \$29,236.30.

It was reported for information that, in accordance with provisions of *The Universities Act* and GFC policy, the 48 faculty seats and 48 student seats on Council have been reapportioned. Faculty seats and student seats have been reduced by two each as a result of the reduction in the number of *ex officio* members from 25 to 24.

Prior to the start of the meeting, A.A. Ryan, Professor Emeritus of English, delivered an oral tribute to the late Robert Newton. □

Conference for Human Resource Practitioners

Personnel Services and Staff
Relations would like to make the
University community aware of the
conference "Horizons: Priorities,
Strategies and Results."

The conference, constructed with
human resource practitioners in
mind, will take place 9, 10 and 11
March at the Westin Hotel.

The focal point is future trends in
human resource management.
Emphasis will also be placed on
"how to."

Speakers include international
consultant John Jones ("Strategies
for Organizational Change");
Stephen Gibson, editor of the
Employment Law Report,
("Employment Equity"); John
Amatt, a climber on the Canadian
Mount Everest Expedition ("What it
Takes to Get to the Top"); and Bob
Rideout and Hilda Hall of Ford of
Canada on that firm's "Participative
Management Program."

The conference, sponsored by the
Personnel Association of Edmonton,
should be of value to anyone
wanting to expand their knowledge
and skills in the human resources
field.

Suzanne Russel (429-1407) has
conference registration
information. □

Solicitors Establish Prize for Legal Responsibility Course

The law firm of Field and Field has
established the Master L.D.
Hyndman Prize to be awarded
annually to the student obtaining
the highest marks in the Legal
Responsibility course at the
University of Alberta.

The value of the prize is \$500.
The prize is named after L.D.
Hyndman, Q.C., a graduate of the
University of Alberta in 1927. Field
and Field have been the
University's solicitors since
approximately 1918 and Mr.
Hyndman represented the
University on a number of
occasions. □

Computer Graphics Arrives

Computing Services and the Graphics Division of Technical Services have implemented a method of producing slides from computer graphics.

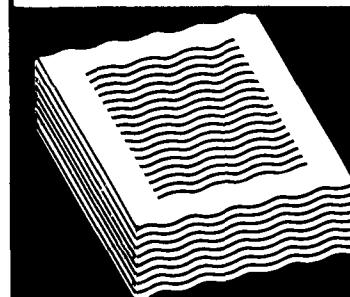

Computer graphics software is used to create the visual image on a computer screen. The information is then transferred by telephone to a workstation at Technical Services. There the special Dicommed unit allows a graphic artist to view and, if necessary, touch up the slide to give it a professional look. Changes that might be made include making lines bolder, improving the slide layout, altering the text, and adding colors and/or hand-drawn artwork or logos.

After the "electronic slide" is checked and possibly modified, the slide information is transmitted by telephone to Toronto for processing. The physical slide is returned to the University by

courier within three working days.

Another innovation involving computer graphics comes from the Department of Radio and Television. It has developed a system that takes computer graphics directly from the computer and puts them on videotape. A common problem with computer graphic animations has been that they can't be packaged and sent to a colleague or taken to a conference and shown to a large audience. Now, computer graphics can be placed on videotape in a format which allows them to be handled as any other video signal. They can be used for animation sequences, given narration or a musical background, or combined with other video material into a program. This provides the means to prepare a full-scale media production which includes computer graphics. □

Currents

Former Vice-President to be Honored

Following the unveiling of a plaque naming the University Services Building in honor of former Vice-President (Facilities and Services) Ron Phillips, at 3 p.m., an informal reception will be held on 14 February from 3:15 to 5 p.m. in the Banquet Room, Lister Hall. Friends of Mr. Phillips and all Physical Plant personnel are cordially invited to attend both the ceremony and the reception on 14 February.

Rutherford Award Nominations

Nominations are being accepted for the annual Rutherford Award for Excellence in Undergraduate Teaching.

The award was established in 1982 to recognize publicly excellent teaching, to publicize such excellence to the University and the wider community, to encourage the pursuit of such excellence, and to promote informed discussion of teaching and its improvement at this University.

Nominations should be sent to: John Laing, Secretary, GFC Undergraduate Teaching Awards Committee (UTAC), 2-1A University Hall.

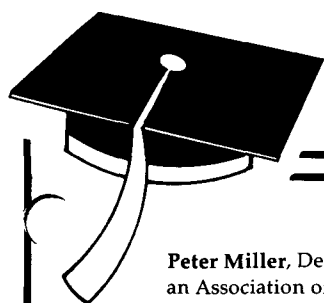

The deadline for receipt of nominations is 14 February.

1986 Summer Temporary Employment Program (STEP)

This Government of Alberta employment program is now officially under way for another year. Guidelines have been mailed to all Departmental Personnel Administrators. There have been a number of improved operating procedures which will facilitate over-all program administration. Application forms are available through departmental offices on campus.

Children's Drama Project

The University/Community Children's Drama Project (for 7-10 year olds) is being offered Wednesdays, 4:30 to 5:30 p.m., from 12 February to 7 May. To register, call Mrs. Kozub, 432-0430.

Activities

Peter Miller, Dean, Student Services, has been awarded an Association of Commonwealth Universities Senior Travelling Fellowship to enable him to visit a number of commonwealth universities to discuss problems in the administration of student exchange programs. Dr. Miller will be absent from campus during late February, March and April.

During his absence, **Allen Vander Well**, Director of Counselling Services, has agreed to serve as Acting Dean, Student Services . . .

Karol J. Krótki, University Professor/Sociology, attended a dinner reception for the retiring Chief Statistician of Canada, Martin B. Wilk. The reception was presided over by the Hon. Stewart D. McInnes, Minister Responsible for Statistics Canada, and the newly appointed Chief Statistician of Canada, Ivan P. Fellegi. As a farewell gift, friends of Dr. Wilk presented him with a motorcycle, apparently a lifelong dream, now fulfilled on retirement to a farm . . . Mayor Laurence Decore recently honored Golden Bears Hockey Coach **Clare Drake** with a Silver Ribbon Award. The award was presented in recognition of his record-breaking 556 wins as an intercollegiate hockey coach . . .

Tom Priestly, Slavic and East European Studies, read the paper "Levels of Analysis of Sound Symbolism in Russian Poetry" at the Conference on Sound Symbolism, University of California at Berkeley, on 17 January . . . **Kevin Mar**, who completed his BFA in Art and Design in 1985 specializing in Industrial Design, was honored by the Government of Canada with the Canada Award of Excellence for Industrial Design in the Young Canadians category. The award, offered every year by Regional Industrial Expansion, recognizes achievements in Productivity, Entrepreneurship, Marketing, Labour/Management Cooperation, Invention, Technology Transfer, Innovation and Industrial Design.

Chandra Mohan: Visiting Scholar From India

On 4 February, the Department of English welcomed Chandra Mohan, one of the two holders of 1985-86 Shastri Indo-Canadian Institute* Visiting Fellowships. Dr. Mohan will be with the department until the end of April. Dr. Mohan is a Senior Lecturer in English at Salwan College, an affiliated college of the University of Delhi. A graduate of Punjabi (BA, MA), Delhi (MLitt), and Agra (PhD) universities, Dr. Mohan specializes in the novel—particularly American and Indo-Anglian fiction. He is currently engaged in research involving a comparative study of nationalism in Canadian and Indo-Anglian fiction. Canadian literature, the study of which is now being undertaken at several Indian universities, is a new area of interest for Dr. Mohan, and he hopes to benefit from working at the University of Alberta Library and from talking to scholars in the English Department. He can be reached in 3-16 Humanities Centre, telephone 432-3969.

* The Shastri Indo-Canadian Institute, named after the late Lal Bahadur Shastri, India's second Prime Minister, was founded jointly by the Governments of Canada and India for the promotion of Indian Studies in Canada, and Canadian Studies in India. □

Library Science Receives Accreditation

The Committee on Accreditation of the American Library Association in conjunction with the Canadian Library Association has accredited the MLS program of the Faculty of Library Science for the third time. The BLS program was accredited in 1969, and the first MLS was accredited in 1979. The next visit will not likely take place until 1993.

The Faculty would like to thank its students, alumni, and the prairie library community for their response to the self-study which preceded the site visit in September 1985 and which provided the basis for program evaluation. The process involved a heavy commitment of time from the academic staff, all of whom participated in the preparation of the self-study.

The Faculty will be able to use much of the data collected to prepare for an internal University review, which all units on campus are being asked to undertake, a review which considers the future direction and development of the Faculty, its resources and its programs. This review will be completed during the summer of 1986, and another site visit scheduled some time in the fall. □

Winter Cities '86: Something for Everyone

Winter Cities '86 will be held 15 to 19 February at various locations throughout Edmonton. It will look at the future of "winter city" business around the world and will feature speakers from 15 countries, including Mayor Itagaki of Sapporo, Japan.

Community events scheduled to complement the conference include activities at the Edmonton Art Gallery, Convention Centre, Rundle and Hawrelak Parks, Edmonton Centre, and the Centennial Library. Program highlights are: a symposium and United Nations Colloquium designed to exchange ideas and technologies to help us understand and enjoy winter in the city; an exhibits show to acquaint people with products and technologies; a Cold Weather Clothing project, the first ever assembled in Canada, highlighting a century of trends in winter styles; and a wide-ranging program of community events, including free

dogsled rides, a fun run, a snowshoe workshop with free "rentals", an overnight campout with Scouts and Guides, and a grand finale torchlight parade.

The University is contributing in various ways to Winter Cities '86. Of note is the unique Cold Weather Clothing project, organized by Anne Lambert and Allison Gray of the Clothing and Textiles Department. Developed through the Historic Costume and Textile Study Collection, the exhibit depicts 100 years of dressing for the cold. You will be able to see how early residents dressed for cold weather and learn more about today's methods of staying warm (by having your clothing photo-tested for heat loss and asking a computer how to dress more effectively against the cold). This particular exhibit will be on display at the Convention Centre from 14 to 28 February. □

Chemistry instructor "Ted" Leavell negotiates the reaches of Quad circa 1919-20. Photo: University Archives.

Roscoe Lights Up the Screen

The gods had Mercury at their beck and call. Mortals at the University of Alberta rely on Roscoe's messaging facility. A singing telegram or a phone call is more personal but for speed and accuracy Roscoe (a.k.a. Remote Operating System Conversational Online Environment) is Mr. Reliable.

One can send a message simply as SEND KEY= /message under 60 characters/ or SEND AWS KEY= will send the contents of your Roscoe workspace to the designated person where KEY= a registered Roscoe ID.

A directory of Roscoe 'KEYS' cross referenced to names is available for consultation. The directory is based on voluntary participation by the users. To access, just key R2.SENDER.

All Roscoe users are encouraged to add their name to the directory and utilize the message facility. If you are not yet registered on Roscoe and would like to be, call the Office of Administrative Systems (OAS) Customer Support Centre, 432-4572.

Copy for Folio can be sent to Ron Thomas via this medium. In Roscoe, key SEND AWS KEY= COR08. For notices of lectures, seminars, etc. key SEND AWS KEY= COR10 (Tamie Heisler).

Roscoe, now some 10 years old, has been a fixture here since 1981. He's available upon request to anyone with a PC or terminal connection to the OAS computer.

The line on him is if you're good to him, he'll be good to you.

How popular is he? OAS, Roscoe's warder, says that he's the main man for 460 people in 50 departments. A protean figure, Roscoe willingly provides the following capabilities: terminal

editor, job entry, job output to a terminal screen, source or text storage and file access. A programming facility (RPF) gives the Roscoe user the ability to develop customized programs that can be of assistance in virtually every area of data processing. The OAS Customer Support Centre provides an RPF service for automation of a person's repetitive and/or routine Roscoe tasks. □

Workshop Slated for Aquatic Studies

"Lakes and Off-Stream Storage Reservoirs: Water Quality, Fisheries and Recreation" will be the theme of the second annual Applied Aquatic Studies Workshop, 18 and 19 February, in the Biological Sciences Centre.

The workshop will consider such topics as Alberta issues and problems pertaining to lake recreation, fisheries and water quality; practical aspects of water quality in Western Canadian lakes; multiple use of offstream storage reservoirs and lakes in western

North America - practical experience and planned approaches; putting theories into practice; and Cold Lake - Beaver River Studies: developing a water management plan.

Workshop organizers include several members of the Zoology Department: Bill Mackay, Ellie Prepas, Bill Tonn and Pat Frey. The workshop is intended to attract a cross section of scientists interested in freshwater and fisheries in Alberta. □

Folio

Display Advertising

Folio is the official news publication of the University of Alberta, published every Thursday throughout the year (except for July and August when it appears bi-weekly). It has a regular distribution of 9,000 of which 7,800 copies are circulated to teaching and support staff, to graduate students and to other interested people on campus. The remaining copies are sent to provincial and municipal government personnel, news outlets, and businesses and people off-campus.

Sizes and rates

The basic unit size is 27 agate lines x 23 picas (3 7/8" x 2"). The full page is divided into 10 such units, any combination of which is available at a cost of \$35 per unit (minimum 1 unit). Half page cost: \$175. One column cost \$87.50. There is a 15% discount for University departments. A 10% discount is offered for five or more consecutive insertions.

Other specifications

Half-tones (100-line screen or less) are acceptable; no color or bleeds. Camera-ready copy is necessary; there is a charge of 30c per word for typesetting, and \$7.50 for adjustment of design work.

Deadlines

Deadline for submission is 3 p.m. one week in advance of desired publication date. Acceptance of advertisements and positioning are at the discretion of the Editor. For more information, telephone (403) 432-2325 and ask about Folio display advertising, or write to: Folio Display Advertising Office of Public Affairs 423 Athabasca Hall University of Alberta Edmonton, Alberta T6G 2E8

Supercomputer Offers Time for R&D

The University of Calgary is offering Western Canadian firms and institutions complimentary time on its \$17 million Cyber 205 supercomputer. The Province's Department of Economic Development has prepurchased \$10 million worth of time on the Cyber 205 for commercial research and development. Applications for computer time are welcome from any individual or organization from the private or public sector. Control Data Corporation's Cyber 205 is in the class of systems called supercomputers because of its very high speed. Through the use of new hardware technology and method of operations called

vector processing, the supercomputer is able to perform functions many times faster than conventional computers. For example, a reservoir simulation model which took more than 21 minutes to run on a large mini-computer ran in 18 seconds on the Cyber 205.

Interested parties should contact SuperComputing Services (SCS), a department of the University of Calgary, for information and application forms.

The address is: SCS, Suite 390, 1620 29 Street N.W., Calgary, Alberta T2N 4L7. Telephone (403) 270-5451. □

Royal Archaeological Institute Invites Applications for Membership

The Royal Archaeological Institute, founded in 1843 and one of the oldest archaeological societies in the world, invites applications for membership.

The RIA (patron: Her Majesty Queen Elizabeth II), publishes the internationally-recognized *Archaeological Journal* annually and holds monthly meetings from October to May on Wednesdays in the rooms of the Society of Antiquaries at Burlington House, Piccadilly, London. Topics covered at such meetings and in the annual journal cover many aspects of archaeology, architecture and art history. Members also have access, while in London, to the Library of the Society of Antiquaries at Burlington House.

In addition to library privileges and the *Archaeological Journal*, research grants are now becoming available to members with specific projects in mind. (Information on these grants is not currently available.)

Candidates for membership are elected by the RIA council, with sponsorship by members of the Institute. Ordinary membership in the Institute costs £10 p.a. The

Archaeological Journal is sent free of charge to members.

For further information and application forms, contact C.J. Simpson, Office of Public Affairs, 423 Athabasca Hall, 432-2325. □

The Telltale Heart

A free service provided by Campus Recreation is that of the Cooper 12-minute walk-jog-run test. Testing sessions, to be held on the Pavilion's track beginning 10 February, are designed to determine an individual's cardiovascular fitness.

Art Burgess says visitors can "qualify for a certificate (suitable for framing) and impress both friends and enemies." The certificate declares the holder's fitness level as of the test date.

Registrations are being taken at W-90 Van Vliet Physical Education and Recreation Centre.

Testing will be done on the following dates: 10 February, 12:10 p.m.; 11 February, 7 a.m.; 12 February, 7 a.m. and 4:45 p.m.; 13 February, 12:10 and 4:45 p.m. □

Have the Bears Got a Game For You

The Canadian National Hockey team will take on the University of Alberta Golden Bears Tuesday, 11 February.

The National team, coached by Dave King, boasts a lineup filled with top young National Hockey League draft choices. Bears' coach

Clare Drake predicts a very fast skating and exciting game.

The Bears will be the only Canadian university club that Team Canada will play this season. Game time is 7:30 p.m. at Varsity Arena. There will be a general admission charge of \$5. □

Don't we all wish, at some time, that we could turn back the clock and start all over again. We can't but "Chatty Cathy" can and did on 14 January at 2:53 p.m.—all the way from 100,000 hard-earned hours back to 0 (in human years it represents about 11.4 years). The UNIX operating system, or "Chatty Cathy" as it's affectionately called by those in Computing Science because of an early Votrax voice synthesizer, was one of the first three systems shipped outside of AT&T Bell Laboratories in 1973 (it was installed on a Digital Equipment of Canada (DEC) PDP 11/45). The DEC PDP 11/45 is still running UNIX but the department has expanded considerably, acquiring 18 computers or workstations with various versions of UNIX. At "Cathy's" party, Faculty Service Officer Steve Sutphen (seated) explained the visual graphic display of the numerous UNIX interconnected systems to (from left to right): Jim Peters, UNIX Marketing Manager, AT&T Canada; Lee White, Chairman of Computing Science; and Ted Feddema, Sales Representative, DEC.

Lisa Avedon: Women's Program Speaker, Faculty of Extension

1985 marked the official end to the United Nations International Decade for Women. The U.N. convened formal meetings in Nairobi, Kenya, in July 1985. Forum '85, the non-governmental organizations' meeting, was held alongside the U.N. meetings.

More than 15,000 women from around the world attended Forum '85, undoubtedly the largest gathering of women ever. Lisa Avedon, faculty member of Conestoga College in Ontario, attended Forum '85 as President of the Canadian Congress for Learning Opportunities for Women (CCLOW).

Ms. Avedon will speak at a public forum organized by the Women's Program, Faculty of Extension, and CCLOW on 14 February. She will show slides and discuss the

importance of what happened at Nairobi and the importance of international linkages. She will focus particularly on "Nairobi Forward-Looking Strategies", the document from the conference, to which Canada is a signatory.

Lisa Avedon has a BA in Sociology and Psychology from Milwaukee-Downer College, an MA in Adult Education from Columbia University, and is currently completing an EdD in Adult Education at the University of Toronto. Her dissertation research is on the coping strategies of job loss victims.

The forum, the second in a series of free public forums sponsored by the Women's Program, will start at 7:30 p.m. in 2-115 Education North. Child care is available on-site. □

GFC Committee on Writing Competence Petitions

Pending finalization of the details with regard to the establishment of the GFC Committee on Writing Competence Petitions, the Nominating Committee has been asked to seek nominees to fill the following vacancies which will occur on that Committee: two members of the academic staff and one undergraduate student to serve as regular members and two members of the academic staff and one undergraduate student to serve as alternate members.

The Committee on Writing Competence Petitions will hear petitions from students who have been refused permission to re-enroll in the University because they have not met the University writing competence requirements.

Would those who have suggestions for nominations or who are interested in serving on the GFC Committee on Writing Competence Petitions please contact Mrs. Pamela Plaskitt, Secretary to the GFC Nominating Committee, 2-5 University Hall, before **Tuesday, 11 February**. It would be appreciated if a *vitae* could accompany any mination.

Talks

Comparative Literature and English

6 February, 1:30 p.m. Brian McHale, Department of Poetics and Comparative Literature, Tel Aviv University, "Masques of Postmodernism." Senate Chamber, Arts Building.

Investing for Income

If you're confused about the relative merits of the many alternative income investments, you are not alone. Now, McLeod Young Weir has prepared a brief, easy-to-read booklet which is designed to strip away the mystery and confusion. It will be of particular interest if you are concerned with secure investment income. It also deals with the tax treatment of these various types of investment.

This booklet deals with:

- Interest
- G.I.C.'s
- Mutual Funds
- Term Deposits
- Treasury Bills
- Dividends
- Canada Savings Bonds
- Bonds and Debentures

For your complimentary copy, simply complete and mail this coupon or telephone Ronald J. Hiebert, Investment Executive at (403) 428-1478.
